

OWNER DATA INTAKE

Let's put your real numbers in.

Fill in whatever you know — rough numbers are fine, and you can do it in passes. Anything you leave blank simply stays empty in the dashboard until you add it. The most important sections are **Services & Pricing** and **Monthly Overhead** — those power most of the dashboard. When you're done, send this back and we'll upload it.

1 · Print & write or type into the boxes on your computer.	2 · Send it back email the file to your Beyond Concierge contact.	3 · We upload it and your live dashboard fills in.
